

QuickBooks

# The single most comprehensive tool for the business side of your business.

## Why would you need QuickBooks?

You probably didn't start your business because you like to spend your time doing the accounting. QuickBooks allows you full access to your information and full control over your book-keeping tasks. It makes it easy for you to share those tasks, assigning them to your staff or to your Warnick Consultant.

The biggest advantage of QuickBooks is that you can do as much, or as little as you like. It is powerful enough to handle virtually any accounting challenge.

QuickBooks is the easiest and most comprehensive tool that allows us to give you the reports and the quick access to data that you need to grow your business.

- Keep your data accurately in accordance with generally accepted accounting principals that are familiar to any professional or business owner.
- Achieve a consistent framework for year over year analysis and comparison.
- Streamline your processes for managing critical accounts receivable and accounts payable activity.
- Organize your financial data, customer, vendor, and employee information all in one place.

## Why Warnick Consultants?

Warnick Consultants are QuickBooks Certified ProAdvisors. When we do your QuickBooks set-up, we don't just accommodate the information you need today. We anticipate the kinds of information your business will need as it grows and the kind of reports you'll need to help you reach that growth.

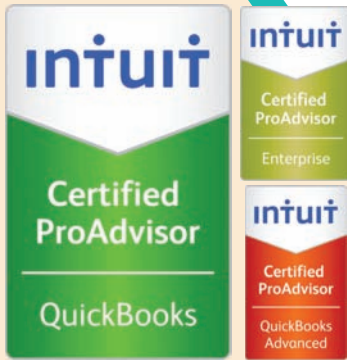

We do the part of your bookkeeping that you don't have the time or the staff to do.

### Some of the features we like best:

One-click financial, sales and tax reports can be configured and customized for your individual preferences by your Warnick consultant

We can create industry-specific reports and install industry features (in Premier)

Complete vendor and customer transaction history at your fingertips

Easily print checks, pay bills and track expenses

Manage payroll and payroll taxes

Multiple users can access the data simultaneously

Basic timesheet entry can help log payroll

Easy-to-use bank statement reconciliation

A wide variety of standard reports are easy to use and memorize with frequently used filters

Intuit and QuickBooks are registered trademarks of Intuit, Inc. Terms and conditions, features, support, pricing and service options subject to change without notice.

### If I have the software, why do I need Warnick Consultants?

We're *your* personal QuickBooks experts. Warnick Consultants offers professional training and support that is tailored to your specific business and your immediate needs. We work with your staff to implement your processes.

Our clients say that they sleep better at night knowing we are reviewing their critical accounting. They save time and money and avoid endless frustration by having Warnick Consultants review their books regularly and facilitate the conversations with their CPAs. Our consultants know the questions to ask and the places to look to make sure the numbers add up.

### How to get QuickBooks?

Call Warnick Consultants to place your order. You will have several choices and your Consultant will help you make the purchase that is right for your business. Your consultant will also set up an appointment to install your software and help with your set-up and training.

### What are my options?

QuickBooks Pro is the best solution for most businesses with 3 or fewer staff members who will need to use QuickBooks.

QuickBooks Premier offers additional tailored options for expanding businesses that may need as many as 5 users.

QuickBooks Enterprise Solutions is the most advanced package with enhanced customization, industry-specific options, and sophisticated inventory capabilities.

### Expert guidance and proper training are essential to making these systems work for you.

If you are already using QuickBooks, Warnick Consultants offers skilled training and support services to make sure you are utilizing all of the many features efficiently for your business.
